PROFILE

Motivated Computer Science student with practical experience in Python full-stack development and deep learning. Skilled in designing scalable applications, solving complex problems, and developing efficient, user-centric solutions with clean, intuitive interfaces.

EDUCATION

Kongu Engineering College, BE Computer Science and Engineering 11/2022 – 03/2026 | Erode, India
CGPA: 6.76

HSC - GV Higher Secondary School 07/2021 – 05/2022 | Salem, India
Score: 82.5%

SSLC - Vivekanandha Kalvi Nilayam Matriculation School 06/2019 – 04/2020 | Salem, India
Score: 95.6%

AREA OF INTEREST

- Python Full-Stack Development
- Database Management Systems

TECHNICAL SKILLS

Programming: Python
Frontend Technologies: HTML, CSS, JavaScript, React
Backend Technologies: Django
Databases: MongoDB, MySQL
Tools: Git, GitHub, Postman

SOFT SKILLS

- Adaptability
- Teamwork
- Problem-Solving
- Leadership

PROJECTS

Diabetic Retinopathy 07/2025 – 10/2025

Python | TensorFlow/Keras | NumPy | Pandas | OpenCV
• Designed and trained a **deep learning-based model** to detect **Diabetic Retinopathy** from retinal images with high accuracy.
• Enhanced model performance by applying **Pelican Optimization Algorithm (POA)** and **Cuckoo Search Algorithm (CSA)** for feature selection and hyperparameter tuning

Internship Management System 12/2025 – 02/2026

HTML | CSS | TypeScript | React | Django | MySQL
• **Designed and implemented** internship listing, student application tracking, and admin management modules to streamline the complete internship workflow
• **Developed an automated certificate generation system with secure role-based access (Student and Admin)**, ensuring data integrity and seamless end-to-end user experience

News Aggregator 09/2024 – 11/2024

HTML | CSS | JavaScript | React | Django | MySQL
• **Developed a Python full-stack News Aggregator using Django and React**, integrating a News API to fetch and display real-time news content
• **Implemented search, category filters, and voice-based news retrieval**, along with RESTful APIs and a responsive UI for fast and seamless user experience

CERTIFICATION

MongoDB Associate Developer

Issued by MongoDB
03/2025
• Strong knowledge of MongoDB including NoSQL architecture, schema design, CRUD operations, indexing, aggregation, and performance optimization for scalable applications.

ACHIEVEMENTS

Presented a research paper titled **“Artificial Intelligence in Tomato Leaf Disease Detection”** at a **National-Level Student Research Paper Presentation, IIT Madras.**

PUBLICATIONS

Diabetic Retinopathy Grading using YOLOv7 & Swin Transformer, IEEE 14/03/2026

• Presented a research paper at **IEEE I3CTCON 2026** on a hybrid deep learning model for diabetic retinopathy grading
• Developed a **YOLOv7 + Swin Transformer architecture**, optimized using **Cuckoo & Pelican algorithms** for improved prediction accuracy
